NORTH WALES WILDLIFE TRUST

REPORT OF THE TRUSTEES For the year ended 31 March 2020

Our vision is

A North Wales rich in Wildlife valued by All

Reference and Administrative Details

Registered Charity No. 230772

Company Limited by Guarantee No. 773995

Registered Office and Head Office

Llys Garth, Garth Road, Bangor, Gwynedd, LL57 2RT Telephone 01248 351541 e-mail; nwwt@wildlifetrustswales.org Website; www.northwaleswildlifetrust.org.uk

East Office

Aberduna, Ffordd Maeshafn, Maeshafn, Denbighshire, CH7 5LD

Auditors

Bennett Brooks & Co Ltd, Registered Office: St. George's Court, Winnington Avenue, Northwich, Cheshire, CW8 4EE

Solicitors

Gamlins, 14/15 Trinity Square, Llandudno, Conwy, LL30 2RB

Bankers

HSBC, 274 High Street, Bangor, Gwynedd, LL57 1RU

Aldermore, 1st Floor, Block B, Western House, Lynch Wood, Peterborough, PE2 6FZ

Ecology Building Society, 7 Belton Rd, Silsden, Keighley BD20 0EE

Nationwide Building Society, Pipers Way, Swindon, SN38 1NW

Shawbrook, Lutea House Warley, Hill Business Park, The Drive, Great Warley, Brentwood, Essex, CM13 3BE

Constitution

North Wales Wildlife Trust is a registered charity (Charity No. 230772) and a company limited by guarantee and incorporated under the 1948 Companies Act (Company No. 773995).

Organisation

A Council of trustees of 11 members meet bi-monthly, to govern the Charity. There are subcommittees covering finance, conservation (east and west), marine, and members' branches. The Trust Chief Executive Officer (Frances Cattanach) is appointed by the trustees with responsibility for operational management. The Trust has two trading subsidiaries. The activities of NWWT Trading Ltd (No. 2453752) and Enfys Ecology Ltd (No. 2535184) are highlighted on pages 17 & 18.

Structure, Governance and Management

The directors of the charitable company are its trustees for the purpose of charity law and throughout the report are collectively referred to as trustees. The governing body of the Trust is its Council. The Council is composed of all trustees who are volunteers and is authorised to appoint new members to fill vacancies arising through resignation or death of an existing member. The Articles of Association of the Trust govern the appointment of trustees, and are available on request. On appointment, trustees are provided with an induction pack, and are directed to the Charity Commission website. The Council agrees the Trust's annual budget and strategic plan, while the day-to-day management of the Trust is delegated to the Trust CEO, Frances Cattanach.

TRUSTEES OF THE NORTH WALES WILDLIFE TRUST STATEMENT OF TRUSTEES' RESPONSIBILITIES

The trustees are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires trustees to prepare financial statements for each financial year which give a true and fair view of the state of the affairs of the Trust and of the incoming resources and application of resources, including income and expenditure, of the charitable group for that period. In preparing those financial statements, the trustees are required to:

- Select suitable accounting policies and then reasonably apply them consistently;
- Observe the methods and principles in the Charities SORP;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Trust will continue to operate.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Trust and to enable them to ensure that the financial statements comply with the Companies Act 2006, the Statement of Recommended Practice for Charities and the charity's governing document. They are also responsible for safeguarding the assets of the Trust and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware, and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

Fundraising Management

Adhering to the Charities (Protection and Social Investment) Act 2016, we conform to the Code of Fundraising Practice as detailed by the Fundraising Regulator. Amongst other things, this provides guidance to ensure vulnerable people and others are protected from unreasonable intrusion on their privacy, unreasonably persistent approaches or undue pressure to give. In order to assess the impact our fundraising has on the general public, aside from close staff management, we have a complaints policy in place, which enables us to log and analyse any complaints we might get.

Financial Reserves Policy and Risk Management

Sufficient unrestricted funds need to be held to cover ongoing expenses and potential cash flow problems arising from, amongst other things, grants being paid in arrears by slow payers. The trustees believe that the level of reserves required to maintain this liquidity should be 3 months' budgeted expenditure which, for 2020/21 financial year, is £526,907. At the end of 2019/20 the unrestricted reserves held in net current assets amounted to £828,658 which is significantly higher than last year. This is due to the promised increased effort on managing cash flow as well as very welcome unbudgeted income received for providing access for the construction of part of Clocaenog windfarm. As the financial year closed we started to experience the challenging impact of Covid-19; changing the activities we could carry out and raising uncertainties and changes to how we were funded. The healthy starting position of our assets and tight monitoring procedures set us in good stead to help us through this unprecedented period during 20/21.

Investment Powers

The Trust has the power under the Articles of Association to invest all monies not immediately required for the furthering of the objects of the Trust in such a manner as may be deemed expedient, provided that monies subject to the jurisdiction of the Charity Commissioners for England and Wales shall only be invested in such securities and with such sanction as may for the time being be prescribed by law.

Related Parties

The charity is a member of the Wildlife Trusts (registered as the Royal Society of Wildlife Trusts, registered charity number 207238) and Wildlife Trusts Wales (registered charity number 1041567) which act as umbrella bodies carrying out representation at a UK & Wales level, public relations and joint projects on behalf of the Wildlife Trusts. Each member has the use of the Wildlife Trusts' logos and benefits from the resources, best practice and specialised experience of other member trusts. Membership gives the charity a UK and in particular a Welsh voice and profile, as well as respectability by association for those unfamiliar with its particular work. However, each member remains entirely independent.

Objectives and Activities for the Public Benefit

The trustees confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the Trust's aims and objectives and in planning future activities. Trust nature reserves are open to the public and information and educational resources are promoted at the range of shows and events we organise and attend. Volunteering opportunities and our events are open to all and a wide range of people get involved in response to our website and local promotion. The community and education projects support local people in creating wildlife-friendly green-space and better opportunities for wildlife throughout the region. Specific activities are designed to reach less traditional sectors, such as ethnic minorities, those recovering from illness, ex- and youth offenders, company staff and local residents, and the OPAL project to promote citizen-science will encourage all to understand their local environment. Our Wild Coast project involves young people from a variety of backgrounds. Members and the public are invited to our branch-organised activities, which include social and educational opportunities to build local groups of informed, vigilant and environmentally-aware citizens. Many events are designed to inspire people about the natural resource on their doorstep and encourage them to be involved. Our work with schools; on nature reserves, on the coast, on their land and in the classroom engages all sectors of society.

Our Vision for the future

A North Wales rich in Wildlife valued by All

Our Mission

To improve places for wildlife and connect people with wildlife

Recognising that we are uniquely positioned to

- Strengthen the relationship between local people and the natural environment of North Wales
- Promote the value of the natural environment to local people

Our Aim

To protect and create resilient ecosystems on land and in the sea

Strategic Themes

Our work will deliver on two strategic themes

1. Making Places Better for Wildlife

This theme includes our work on

- Creating Living Landscapes
- Securing Living Seas
- Managing our nature reserves
- Supporting the good management of undesignated wildlife sites

2. Connecting Wildlife and People

This theme includes our work on

- Improving understanding of wildlife and ecosystems
- Engaging and educating people of the value of their local wildlife.
- Demonstrating how the natural world works for both people and wildlife.
- Inspiring and empowering people to act for wildlife.

Review of Activities

Making Places Better for Wildlife

Creating Living Landscapes

Living Landscapes remained central to operations, ensuring that our work for wildlife is set in the context of the wider landscape. Working at a landscape scale, focusing on maintaining high quality wildlife-rich areas, we aim to ensure that the surrounding land will be managed in an effective way for both ecological and commercial purposes through strong working relationships with the farming community and businesses. We want to see wildlife habitats interconnected, and local people and organisations cherish, value and understand the landscape as a whole, recognising it as an integral part of their lives. In the year, we gave habitat advice to around 126 land owners and householders influencing the management of over 1,507 Hectares of land.

Delivered by Project Officer Amy Green and assisted by 120 volunteers, the Lottery Community Fund Wild About Mold Project improved 9.4 ha of greenspace for wildlife and people in and around Mold. This formed part of our vision for a **Living Landscape in the Alun & Chwiler** area. Since April 2018 it delivered 48 events including educational walks and talks on local wildlife, as well as training sessions in scything and dry-stone walling and managing local areas for wildlife. Amy left us for pastures new in December and we wish her the very best in her future endeavours. Our Woodlands for Water Welsh Government/EU funded project was due to start in October, but the agreement to start was still not given by the end of the financial year, due to uncertainties over government funding caused by Covid-19. Actions to minimise costs were taken. It will create and enhance woodlands and other habitats and help improve water quality. Jonathan Hulson is our new Project Manager.

With assistance from other staff and volunteers, Henry Cook successfully led the continuation of the Anglesey Fens Living Landscape project (supported by NRW) until the conclusion of this phase in December. Working on 17 landholdings a wide variety of tasks were undertaken including; nine ponds created and five restored, over 14 ha of wildflower meadow restored, over 1.4km of hedgerow created or restored, woodland enhancement including the planting of 7000 trees, 1.3km of Himalayan balsam controlled, 2.2 km of road verge enhanced, 37 herptile refugia created and 13 barn-owl boxes erected. Advice and assistance was given to 33 landowners, and events engaged over 670 people including five local schools. Over 200 species records were submitted to Cofnod, our Local Record Centre.

The Welsh Government/EU funded SMS **Wrexham Industrial Estate Living Landscape** project continued with Mark Greenhough as the project officer. A new reedbed was planted on the banks of the Dee by Severn Trent staff and a new woodland strip was planted with DTCC staff on Clays Golf Club. Roundabouts and verges bloomed again with annual wildflowers in and around the Estate. We continued to manage wildlife areas on business-owned land within the Estate and established new management agreements such as with Hoya Lens UK Ltd, where a disused football pitch will become a wildflower meadow with an orchard and picnic area. Mark left us in November and Henry Cook started as Project Officer in January 2020.

We contributed to the control of invasive species through two key projects. The **Our River Wellbeing Project** completed over 30km of Himalayan balsam control along the banks of the river Dee between Bala and Cynwyd. We also trained 28 volunteers in accredited training courses to benefit both the Trust's work and the volunteers' health and wellbeing.

NWWT secured funding from Natural Resources Wales to fund a Project Officer to work as part of phase 1 of the Wales Resilient Ecosystem Network Project, a Pan-Wales INNS strategic management project led by WTSWW. Phase 2 of this project will be led by NWWT and will lead to the development of an INNS strategy for Wales.

The NWWT INNS team were also able to deliver the following via funding from NRW, DCWW, Chester Zoo and the GB Non-Native Species Secretariat:

 Release and monitor the Himalayan balsam biocontrol agent at 2 locations on the Dee catchment in Corwen, Denbighshire

- Undertake monitoring for American signal crayfish at Llyn Tegid, Bala using passive traps and eDNA monitoring
- Run biosecurity wash down and awareness stations at both national and international paddle sports and angling events in the UK

Swift-boxes were installed in Bethesda, Rhosgadfan, Llanrug, Corris, Bangor and Holyhead, a school and a University building in Menai Bridge, and a leisure centre in Beaumaris. We sourced swift-boxes for Gwynedd Council in Caernarfon, and advised a Llandudno museum. We organised a training workshop, a University talk, and surveys in Llangefni, Bethesda, Menai Bridge, Holyhead, Dolgellau, and Llanrwst. We produced leaflets for developers / builders promoting swift bricks in new-builds, wrote the species account for forthcoming Birds in Wales, and were featured in the Daily Post. We attended the UK Swift Conference in Bristol, and set up a local swift Facebook group. For the second successive year we marked National Swift Awareness Week with a series of 'Swift Half' evening talks and guided swift surveys across North Wales, and our network of swift contacts has grown to include influential people involved in local planning and housing development who we are now working with to try and apply pressure for greater provision of swift boxes in new-builds.

Through the **Denbighshire Life on the Verge** Group, we have continued to support the new Denbighshire road verge policy and encourage its continuation in the face of official scrutiny. We agreed to support a verge restoration project being developed by the Woodland Skills Centre and Denbighshire County Council's biodiversity staff via our Alun and Chwiler Living Landscape Project. WCBC owned roundabouts and the Cefn Road verges were managed for arable wildflowers and the Anglesey Fens project funded the management of key Anglesey road verges.

The **Habitats and Meadows group** membership continued to increase, leading to more visits and fruitful exchanges of help and information. Highlights include a mosaic of habitats in a property in the Conwy valley, contrasting meadows in Anglesey and Flintshire, and a new woodland in Llanberis.

Welsh Beaver Project

After provisionally securing over £500k of funding in April for a three-year project to release beavers to the Dyfi catchment, problems the Welsh Government had concerning compliance with EU rules meant that our funding was reduced to £150k in October for a one-year project only. Subsequent applications for funding were unsuccessful. Despite this setback the project completed its submission of reintroduction licences to NRW, trained ten beaver volunteers, gave over 20 talks, ran 7 sessions with primary schools and delivered 10 community consultation events in the Dyfi catchment. A beaver enclosure was also created at Montgomeryshire WTs Cors Dyfi reserve and beavers will be released into it during summer 2020.

Protecting Wildlife Havens from development

Among other actions, we submitted comments through the Flintshire Local Development Plan consultation, Strategic Development Areas in Conwy and, in relation to the risk to the hydrology of the Anglesey Fens, through the National Infrastructure Framework. We continued our opposition to the development of a new coffee shop in Bangor that threatens a small patch of wild space with mature urban trees. We objected to a commercial development proposal that would destroy almost half of 'The Oaks' Wildlife Site on the Wrexham Industrial Estate. We responded effectively to building alterations particularly where they would impact swifts and bats. We continued our fight to stop the A55-A548 'Red Route' bisecting Leadbrook Wood and the surrounding countryside and to assist in this we employed an experienced planner, Mike Webb, who did a great job representing us and the local action group to the Senedd Petitions Committee.

Securing Living Seas

Our work to minimise seal disturbance at Angel Bay continues through an active group of volunteers and we work through the Wild Seas Wales Partnership to work to standardise and promoted shared messages about wildlife disturbance. We continue to work with the Cetacean Strandings Investigation Programme, Pen Llŷn a'r Sarnau SAC Liaison Group, Wildlife Trusts Wales' Living Seas Group, Angel Shark Project Wales and Wales Coast Path Partnership. We continue to make clear our concerns with regard to offshore developments such as Round 4 Offshore Wind, Awel y Môr and Morlais. Following the public enquiry into the Wylfa Nuclear Power station, Horizon continued to seek

the Development Consent Order. Our concerns led to a delay on the decision and questions from the Sec of State, which we answered in a joint response with other NGOs. The process is currently in a suspended state.

Managing our Nature Reserves

Our nature reserves are some of the best examples of semi-natural habitats in North Wales, providing protection for rare and threatened species that need assistance to spread back into the wider countryside, giving people the opportunity to enjoy and learn about the rich variety of habitats in their area. They rely on the invaluable support of a strong team of staff and volunteers.

Conwy

At **Rhiwledyn**, Eurig Jones recorded the rare spiked speedwell at the bottom of the cliff face for the first time and James Robertson dark red helleborine for the second time demonstrating that our long battle against non-native cotoneaster there is working. However, it is still a considerable challenge at **Gogarth**. At **Cors Bodgynydd**, a new fenceline was installed across to enable grazing of the central section (not SSSI designated) of the reserve.

Denbighshire

At **Aberduna** the Our Wild Community project and volunteer group continued to provide valuable help in a wide range of activities including the wildlife garden near our offices. The butterfly transect was up and running and collected valuable data thanks to a small team of volunteers. At **Coed Cilygroeslwyd** a highlight of the year was a community engagement walk with Siop Pwllglas staff and Welsh learners. Volunteers Des James and Helen Conrad recorded generally lower figures of fledglings in the nest boxes on site, a reflection of the very wet weather. Across the valley, the **Graig Wyllt** volunteer group continued to help to maintain the paths and clear hawthorn scrub from the limestone grassland. Friends of **Y Graig** volunteers met a number of times at weekends to clear scrub, cotoneaster and bramble supplementing the valuable efforts of Martin Baxter and his Hebridean sheep. At **Maes Hiraddug** the belted Galloway cattle continue to provide an important addition to our dedicated team of volunteers. Major fencing working at **Gors Maen Llwyd** was funded by the Sustainable Landscape Solutions project

Flintshire

Further Seedlings of the rare Deptford pink were propagated by volunteers and planted at **Coed y Felin** out to bolster the population. We are indebted to volunteer reserve warden Mark Hughes for leading the monthly **Big Pool Wood** work party alongside the team of dedicated volunteers. We are particularly grateful to Roger who provided a new bird hide for the reserve. At **Ddôl Uchaf**, grass of Parnassus seed sown in 2018 successfully flowered as part of an attempt to reintroduce this rare plant. The western boundary was also laid as part of a weekend opportunity to learn practice this skill for a small group.

Gwynedd

At **Caeau Tan-y-Bwlch** over 8,000 flowering greater butterfly orchids were counted in late June, a new record count and almost double the previous record. We didn't do a hay-cut there in 2019 due to the spring drought and just grazed the site hard in the autumn, bracken cover is on the decrease too thanks to our hard-working volunteers and a cut by contractors. At **Gwaith Powdwr**, funding from Natural Resources Wales RW has enabled another of the old explosive stores (T4) to be improved with new bat roosting opportunities and our agreement with them has been renewed to include funding for much needed reptile habitat management work. We are investigating the introduction of light grazing at **Coed Crafnant** to benefit rare lichens and bryophytes.

The belted Galloways at **Eithinog** also continue their sterling work watched over by a dedicated team of "lookers". The superb efforts of the regular monthly work parties at the **Spinnies, Aberogwen** kept the reserve in good shape and the new Viley Bird Hide soon proved to be a valuable addition to the site providing excellent views of reed warbler and kingfisher amongst many others. Routine woodland management took place at **Nantporth** with relatively few incidents of tree damage in the winter storms.

Wrexham

It was another busy year at **Marford Quarry** with substantial work undertaken on the invertebrate bunds which provide habitat for the many invertebrates and pollinators at the site. A key team of volunteers continue to walk the butterfly transect recording the abundance of different species and it is now in its 28th year. Further tree safety work was also necessary here and at other sites following gales. At **Minera Quarry** a new foot bridge donated by RoBal Engineering was completed at the entrance and pony grazing was introduced to the grasslands at the top of the quarry.

The volunteer group worked hard at clearing scrub from the flower rich areas alongside other tasks. And the reserve, along with other sites provided a peaceful setting for a number of well attended mindfulness and yoga events. This large reserve provided opportunities for engagement and development of its many features with some key partners including the Minera Quarry Trust and the Clywedog Partnership. We carried out the annual hay-cut at **Old Pulford Brook Meadows**.

Ynys Môn

With appropriate management in place and the favourable weather in 2019, and perhaps also through 2018, it was a bumper year for spotted rock-rose at **Porth Diana** and marsh gentian at **Cors Goch**; both species reached numbers not seen for many years. After many years of investment, we are finally able to manage grazing regimes in the way we want to at **Cors Goch**, although the herd of belted Galloways and Highland cattle still like to test us from time to time. The massive volunteer effort at the reserve helped achieve a tremendous amount of work including the restoration and use of the garden and grounds around Bryn Golau cottage; now a great base for volunteers and events. A wide range of training sessions, guided walks and even a new writer's group were all based at the cottage. The tern colony at **Cemlyn** showed continued signs of growth and for the first time Sandwich tern fledglings were ringed; over the autumn and winter months there were several reports of these birds from as far afield as South Africa. Routine woodland management took place at **Coed Porthamel** with relatively few incidents of tree damage in the winter storms. We continued to work with many volunteer groups including the Bangor University Conservation Society who were able to help our on several occasions during heathland management work at **Mariandyrys**.

Connecting People and Wildlife

We continued to engage and inform people bilingually about wildlife through both staff and local branches and estimate we interacted directly with at least 18,600 people. We ran around 633 events on our reserves and 169 further afield, including a "Swift Half" event in Dolgellau, litter picking in Bala run by our Living Seas Wales and River Wellbeing projects, a re-tern event at Cemlyn and a visit to the Gronant little terns, BioBlitz's in Northop and on Halkyn Mountain, a dawn chorus walk at Gors Maen Llwyd with black grouse and cuckoos, searching for silver-studded blues, glow-worms and moths on the Great Orme, and fungus forays across North Wales This includes those run by our volunteer branches whose sterling efforts arranged over 21 events on our nature reserves and 42 on other sites.

Through our various projects, we engaged with over 195 schools, 76 youth groups and over 174 other groups, such as Cylch Meithrin, Llandegfan, Welsh learners' groups, Llanddwyn Women's Institute, Brymbo Heritage Trust, Cymdeithas Coedpoeth and MIND (Ruthin). This year's Lacey Lecture enjoyed by over 340 people, (our largest Lacey audience ever) was given by Prof. Dave Goulson, who explained why insects are in decline, and suggested how we should tackle this crisis, first by turning our gardens into oases for life, and second by fundamentally changing the way we grow food. We were involved in many events run by other organisations, including Connahs Quay Festival, Eisteddfod Genedlaethol, the Royal Welsh Agricultural Show, the Clywedog valley Partnership and the Snowdonia Society MAD weekend. We are grateful to the many talented and generous volunteers who made our events possible.

Our Wild Coast

The past year of the project saw a real focus on skills development, with a record number of young people obtaining John Muir Conservation Awards and the Trust delivering its' first ever youth conservation traineeship in July. The course was run over two weeks and the ten trainees ranged in ages from 16-23. As a result of her involvement one of the participants, Emily Davies, has since become NWWT's first young Trustee. As we head into the final year of the project we have started to concentrate on the three youth-led environmental forums and trying to ensure that their activities can be sustained beyond the end of the funding period in 2021.

Living Seas Wales

Our Living Seas Team continued to get out and about along the coast and some of our event highlights include night time rock-pooling, Risso's Rambles and the "Plast Off", which is fast becoming one of our most popular events. The team organised a whopping 124 events with over 4,000 members of the public and volunteers taking part. In the Autumn, our Living Seas Champions were joined by those from South Wales for a weekend forum and social to celebrate their achievement and contribution to the project which equates to over 820 hours of voluntary time.

Volunteering

Throughout the year volunteers made an invaluable contribution to our work. Over 519 individuals plus 17 groups

volunteered 23,619 hours of their valuable time to help us with our work - a 15% increase on 2018 -2019. This included practical conservation work on our nature reserves and our Living Landscape & Living Seas projects; helping with the day-to-day running of our shops on the Great Orme & at Breakwater Country Park; organising local events and wildlife gardening and administrative work in our Bangor & Aberduna Offices. We could not do our work without the help of these amazing volunteers - a huge thank you goes out to every one of them.

Through **Wild Volunteering Ynys Mon**, Field trips were organised with 8 schools, and groups from college and university. Walks were organised with Cymdeithas Edward Llwyd at Cors Goch, a welsh-learner group at Llanddwyn, and the public at Porth Diana and Cemlyn – as part of the Re-tern event. Other events included the Bird Race, Risso's Ramble, Radical Rock pooling and Winter Waders. Training was offered on species ID for young people, tern feeding at Cemlyn and yellowhammer surveying. Home/landowners were liaised and yellowhammer feeding stations supported. Sandwich terns were leg-flagged at Cemlyn, and a new info-graphic is in production. Ben Stammers was twice a panellist on Galwad Cynnar.

Encouraging Individual Action for Wildlife and the Environment

Our Wild Community project funded by NRW is making a real difference for wildlife and for communities around the 8 pilot nature reserves. Here, we were asking local people; how can they can look after their local nature reserve and how can this help their own community's needs? Together we can:

- Help more people know about their local wildlife reserves
- Help more people use their local reserves
- Develop new local friendships and improve physical and mental health
- Improve the conditions for wildlife, both in our reserves and by connections throughout the wider landscape

At **Aberduna**, we are becoming established in the local community, and had a joint summer event, with shared use of the community field. The pond in the woodland area has become a popular "outdoor classroom" focal venue for other projects. Butterfly transect records increased from 11 visit to 16 this year, and a new local volunteer is designing a new butterfly and bee transect for a new part of the reserve. A wildlife garden Group established, meeting twice monthly. We have forged closer links with a neighbouring group "Outside Lives", Loggerheads Country Park and our own new office base. This project enabled 49 volunteers (including one group), to contribute 1,739 hours of work, through 91 volunteer events.

At **Bryn Pydew & Rhiwledyn** we created an inspiring event programme, with the local community. We worked with local schools, including Ysgol Glanwydden and Ysgol Bodafon planting apple trees and a mini woodland, and providing wildlife resources. In the wider community, we enabled bat roost improvements, and church grounds management.

In and around **Coed Cilygroeslwyd & Graigwyllt**, a Grwp Gwyllt & "Friends of" Group established (for families), and we developed good community links, particularly through the Pwll Glas village shop and the schools. A community pied flycatcher box monitoring scheme was particularly well-received. This kick-started a new habitat connectivity project with the AONB, where local people are engaged in linking habitats across the Vale of Clwyd between our nature reserves through (for example) tree-planting, otter holts. A new volunteer negotiated a community expansion to our Graig Wyllt nature reserve (on a peppercorn rent.

At **Cors Goch**, Anna Williams arranged engaging events with the local community for whom the nature reserve is becoming a key local hub, with new rest areas in 2 of our barns, toilets, and refreshment facilities. People from different walks of life got involved in varying ways; through bird-box making, bee monitoring, a wildlife garden challenge, learning practical skills and creative writing. We worked with the 5 local schools, running workshops in Science Week) students, and secured a further Awards for All grant for events to follow on from this work.

At **Eithinog** the scything training and fungus forays from our extensive programme went down particularly well, and all were supported by local people including staff from the nearby Natural Resources Wales Office. All local schools got involved using the flower, trees and fungi ID charts we made including Ysgol y Garnedd who had about 100 pupils out on a bug hunt one day. The local Clwb Garnedd (holiday club) came out with us several times with NWWT staff and are keen to continue, as well as nursery school children, and the scouts,

We used this project to help support the volunteer group at **Minera** with good numbers of people getting involved. We took time to understand the volunteering experience better recognising what people want from the reserve the help they are giving. Training and equipment needs were identified and will be used to support the development of the group. The popular community hub at Plas Pentwyn in Coedpoeth, was a great focus for our local engagement and we encouraged involvement in the reserve through activities such as photography and yoga. We maintained good links with schools, demonstrating Minera's importance for wildlife, and how valuable a resource it can be for outdoor learning. We got involved in the developing Clywedog partnership, developing a long-term vision for the valley.

Pop-up engagement events were carried out as part of the **Roseate Tern LIFE project**. Eve Grayson and Ben Stammers held sessions at 16 locations around Anglesey and elsewhere on 18 dates throughout the season, offering information on terns and views through telescope or binoculars. Over 300 people were engaged with at these informal events, and the project was also represented at events such as Wildlife Connections Festival, Wild at West Shore, and World Oceans Day.

Away from our nature reserves, our Wildlife and Community Officers, Iwan Edwards in the east and Anna Williams in the west, worked with a variety of project partners and funders. In the north-east we delivered 6 community projects with communities across north east Wales, working directly with 258 people, creating over 9306m.sq of grassland enhancement, over 2000m.sq of new orchard habitat, planting 230m of mixed native hedgerows and over 500 native trees in the landscape. Notable projects include the ENRaW funded project with WCBC to improve green infrastructure on the Caia Park & Plas Madoc estates (WIELL). The Graigfechan eco connectivity project funded by the AONB and Licswm community group 'climate change garden' funded by the National Lottery. In addition, NWWT have supported and 4 communities with Living Churchyard projects and aside dedicated project work have attended 7 events and engaged with over 700 people from communities all over North Wales. Iwan delivered wildlife education sessions with 710 pupils at 22 schools on a variety of projects and trained 159 teachers at 18 schools to improve skills in outdoor education and encourage nature connection. We supported 4 of our Natural Partners; Iceland, Toyota, Atlas Copco, and Airbus to develop and deliver habitat improvement work on their own sites and at local schools as part of corporate sponsored projects. In the north-west, we were successful in obtaining an 'Awards for All' grant from the National Lottery to help develop activities and infrastructure to better connect the community in Llanbedrgoch with Cors Goch, including new a new reserve interpretation board for the village. The focus on reaching a new audience in the local area around Cors Goch has also led to us facilitating sessions with a creative writing group and a mental health and wellbeing group from Anglesey County Council, both of whom now use the reserve on a regular basis.

Being an Effective Voice for Wildlife throughout the Wildlife Trust Movement

The power of the Wildlife Trust movement is in the 3 political levels we work at to make a difference where it counts. Our grassroots are in North Wales; Wildlife Trusts Wales speak up for wildlife in Cardiff; and The Wildlife Trusts are our voice in Westminster. In North Wales, we held a highly visible walking lobby of 30-40 people on the Maes at the Eisteddfod, and contacted AMs and MPs to raise awareness about the need for stronger legislation and Nature Recovery Networks as part of the UK Wilder Future campaign. Through Wildlife Trusts Wales we were active on many fronts, influencing the gestation and development of Welsh policy and legislation where it has an impact on our Through the Environment Growth strategy, we are ensuring recognition and action on the loss of biodiversity, such as our proposals to address the management of Natura 2000 sites, SSSI's and nature reserves. We gave evidence to the Climate Change, Environment and Rural Affairs Committee on Brexit and Our Land and Biodiversity. Following recognition of the critical decline in Insects throughout the Wildlife Trusts, we raised concerns face to face with the First Minister and with Lesley Griffiths, the Environment Minister. We also developed a comprehensive Pesticides Position Statement and in North Wales, Prof Dave Goulson's talk raised awareness amongst our members and the general public. With RSPB and Wales Environment Link (WEL), we presented proposals for a Welsh Seabird Conservation Strategy, with action needed to halt declines in seabird populations. Also, with WEL we lobbied about the plans for 40 days of seismic surveys in the Irish Sea, and to reduce agricultural pollution in Wales. Following the First Minister's decision not to pursue the M4 development, we met with him to recommend designating the Gwent Levels as a Ramsar or Area of Outstanding Natural Beauty (AONB), which was welcomed.

We wrote to all our local MPs in relation to the 2nd reading of the Environment Bill and gave our recommendations for improvements which could be made. Prior to the General Election, we wrote to all Prospective Parliamentary Candidates about the Trust and our aspirations for their environmental actions. We also made sure the new MP for Ynys Mon Virginia Crosbie MP understands our concerns about the potential impact of Wylfa.

Being Widely Recognised and Respected for our Work

We have continued to draw upon the Trust's Communications Strategy in all of our communication work, which aims to help deliver Trust strategic objectives and raise the profile of the Trust. TWT monthly benchmark reports have repeatedly shown that NWWT performs above average for its size.

- The role of our website as a mass communication tool continues to grow with the number of annual unique users increasing to 111,053 (+81%) and plays a key role in delivering key user journeys such as membership recruitment, attending events and visiting reserves.
- Subscribers to our weekly digital newsletter *Wild Weekly/Wythnos Wyllt* have increased to 5,177 (+75%) and 196 (+345%) respectively; and each of the 6 local branches now produce their own equivalent.
- Our renamed and new look member's magazine *Wild North Wales/Natur Gogledd Cymru* is helping to secure membership retention and is now fully bilingual with improved planning, content and design.
- To better demonstrate our impact to our key audiences we produced a new impact report *Our Wild Year / Ein Blwyddyn Wyllt*, sent to all new members and available digitally on our website.
- We sent out regular press releases, generating articles in the local press and interviews on local radio.
- We continue to grow our social media channels with total followers at 18,930 (+29%). Our main Facebook page had 9,068 likes (+43%), Twitter 7,965 followers (+4%) and Instagram has grown rapidly to 1,963 (+67%).
- Communications played an important role in several campaigns and appeals, for example the use of paid
 Facebook advertising to reach our target 'Wildlife Enthusiast' audience has proved successful in driving sign
 up to our 30 Days Wild campaign where locally we engaged with over nearly 1,000 families, schools and
 businesses, helping achieve a national campaign engagement of 350,000 participants!

Increasing Funding and Resources so the Trust can Flourish

The ongoing support of our nearly 7,000 members remains crucial to the Trust, and we have invested heavily in securing new supporters; remaining the fastest-growing Wildlife Trust in the UK. We are equally grateful to legacy leavers and their families, and those leaving gifts in memory of loved ones. As ever, grants also contribute heavily to our fundraising. Competition remains fierce, but we have secured numerous small awards towards work at Cemlyn, Gwaith Powdwr and Cors Goch, as well as swift conservation. Submissions in 2019-20 will also result in a minimum of £90,000 being received in coming financial years, with the hope of considerably more to follow.

Money gratefully received from local members' Branches transferred to central funds during the year was as follows:

Anglesey	£1,850
Arfon	£600
Conwy Valley	£1,200
Clwydian	£350
Meirionnydd	£150

Grants and other funds over £2,000 paid to the Trust during the year

Anglesey County Borough Council (AONB)	£7,268	DONATIONS & LEGACIES	
Big Lottery Fund	£29,929	Beryl Williams Legacy	£5,000
Big Lottery Fund (via Royal Society of	£193,888		
Wildlife Trusts)		Chapman Charitable Trust	£2,000
Clwydian Range and Dee Valley AONB	£7,000	Denise Morris Legacy	£10,000
Community Foundation	£3,000	D'Oyly Carte Charitable Trust	£3,000
National Lottery Community Fund	£10,000	Gaynor Cemlyn-Jones Trust	£2,000
National Lottery Heritage Fund	£161,977	James David McCarter Legacy	£10,013
Natural Resources Wales	£157,088	Jane Powell Legacy	£64,362
Players of People's Postcode Lottery	£30,011	Jonathon Yeardley Foundation	£2,792
Royal Society for the Protection of Birds	£2,703	Oakdale Trust	£2,000
Snowdonia National Park Authority	£2,000	Osprey Appeal Individual Donation	£5,186
SP Energy Networks	£15,000		
Welsh Government	£550,013		
Wildlife Trust of South & West Wales	£18,247		

Ensuring we are Effective and Fit for Purpose

Our new offices at Aberduna started to feel more like home, and staff and volunteers improved the outbuildings for tool and equipment storage, and began to create a wildlife garden. We had an informative and enjoyable AGM in Coedpoeth, attended by over 50 members, with James Byrne, Wildlife Trusts Wales speaking about his advocacy role. We installed a new human resource software management system, and prepared for Bich Jones our Finance Officer to go on maternity leave at the end of the financial year, through training up Sarka Timarova. A group of staff and volunteers attended a Zero Carbon training session with the Centre for Alternative Technology, moving us forward on our journey towards achieving Carbon neutrality. We started work on our new strategy post 2021, with a meeting focussing on our people engagement work, and by running a wildlife conservation conference in Aberystwyth for staff from all the Welsh Trusts. Further work by the Wildlife Trust movement will guide us. Our Business Continuity Plan proved useful in helping to address the challenges of the Covid-19 pandemic which started to bite at the end of the financial year.

Achievements and Performance

	2019-20	2018-19

Plans for Future Periods

As the financial year closed, the effect of the Covid-19 pandemic on the Trust started to bite, and we adapted, in numerous ways, following government advice at all times. To enable home-working after lockdown was announced late March; online communication for staff was enabled, and more regular meetings of Finance and Health and Safety committees were instigated to understand the impacts and put in place mitigating actions. Uppermost in our minds was the health and wellbeing of the public, our volunteers and our staff, whilst at the same time, paying close attention to the Trust's financial sustainability. We started to reduce staffing and workload, and tried to maintain all possible income streams, taking advantage of government financial support where possible.

Through the year our work was guided by our Strategic Development Plan 2016-21, and progress began on our next strategy, with a Welsh Wildlife Trust staff conference in autumn 2019 and a meeting of the CEOs of all the Wildlife Trusts in March 2020. Consensus around these higher-level strategies will provide the framework within which our own future work will fall.

Our Aim

Our aim is to protect and create resilient ecosystems on land and in the sea, through improving places for wildlife and connecting people with wildlife; recognising that we are uniquely positioned to strengthen the relationship between local people and the natural environment of North Wales, and to promote the value of the natural environment to local people.

Our work delivers on two strategic themes;

Making Places Better for Wildlife

We will do this primarily through creating Living Landscapes, managing our nature reserves, securing healthy Living Seas, and supporting the good management of undesignated Wildlife Sites.

Connecting People with Wildlife.

Our goal is to take people on a journey to a place where they feel inspired and empowered to act for wildlife with us. We will do this through improving their understanding of wildlife and ecosystems, engaging and educating them of the value of their local wildlife, and demonstrating to them how the natural world works for both people and wildlife.

By 2021, we plan to develop:

- Three Living Landscape schemes supported by land owners and local communities
- The concept of Living Seas and how it will play out in North Wales
- A flagship volunteer development programme to underpin reserve management
- A network of well-managed, accessible nature reserves and marine protected areas
- An expanded consultancy capacity around our core skills
- Working relationships with relevant stakeholders and their respective representative organisations
- New revenue streams
- Our high-quality educational engagements and strengthen our relationship with the education sector
- The Trust profile as the leading local environmental charity in North Wales

Over the longer term, our aim is for:

- Biodiversity recovering from past decline across North Wales
- The natural environment adapting well and helping to slow down climate change
- A landscape within which wildlife is able to move freely and adapt to the effects of climate change
- Recovering, sustainable ecosystems
- Closer working partnerships with like-minded organisations and those with which we need to work to achieve our aims
- Communities understanding how they benefit from the services that the natural environment provides
- Greater access to wildlife-rich green spaces
- More people valuing, enjoying and feeling inspired by the natural world and valuing the land and sea for the many ways in which it supports our quality of life.

Thanks to the following companies who supported our **Natural Partners** scheme this year;

Ad Astra Caravan Park, Anglesey Sea Zoo, Atlas Copco (Henrob Ltd), Boltholes and Hideaways, Bourne Leisure, Breedon Aggregates / Lloyds Quarries, Coleg Cambria, Eni Liverpool Bay Operating Company First Hydro, Harlech Foodservice, Hauck Fun for Kids, holidaycottages.co.uk, Iceland Foods, Innovation Property Environmental Services, Isallt Guest House, Kehoe Countryside, Knowtra Ltd, Milner Engineering Services Ltd, Outdoor Alternative, Psyched Adventures, RAW Adventures, Rhinog Park (Country Parks Ltd) Riello UPS Ltd, Robal Ltd, Rowan Foods, Smurfit Kappa, Snowdon Mountain Railway, Snowdonia Fire Protection Ltd, Sykes Holiday Cottages, Tarmac, The Polka Dot Fox, Toyota Motor Manufacturing (UK) Ltd Uni & Jack, Wales Cottage Holidays

REPORT ON ACTIVITIES OF THE SUBSIDIARY COMPANIES

N.W.W.T. Trading Limited (Registered Company No. 2453752)

The Directors present their report and accounts for the year ended 31st March 2020.

Principal Activity

The principal activity of the company throughout the year was operating a retail business through three outlets. In addition, the company sold goods at fairs and events and through an internet sales site.

Main Trading Outlets

The two main outlets are a shop in the information centre next to the Tram Station at the summit of the Great Orme and a kiosk at Breakwater Country Park, Holyhead. Both shops are owned by the respective local Council. The outlets are open from Easter to Autumn half term. Both outlets are run by volunteers. There is also a small shop open all year at NWWT's Bangor headquarters. The Great Orme shop now has a credit card machine which proved to be a very worthwhile investment. Many people now expect to pay with a card and the machine ensured that sales were not lost and even increased. The Breakwater Kiosk benefitted from the café at the Park only opening part time and due to the land train running to the Park.

Other Trading

Volunteers and membership recruiters also sold goods at a variety of events and fairs. The new website continued to attract more sales particularly those of species sponsorships.

Staffing Matters

The Trading company employs a trading officer on a variable contract allowing them to do most of their hours at the busiest times of the year. Apart from this one post all other work is carried out by volunteers. The two main outlets are very much team efforts with some volunteers taking on extra responsibilities. The Directors as always want to state their thanks and appreciation to all our volunteers for the time they so willingly give. We recruited a few new volunteers in 2019 and the rotas were nearly full. However, we need to report that a long serving Great Orme volunteer and Trading Board member, Beryl Roberts sadly passed away.

End of Year Financial Overview

The Trading Board is pleased to report that sales increased in every area of trading. The Trading company covenanted over the best figure in many years.

- Great Orme shop sales increased to £44,100 (an increase of nearly 7% on 18/19)
- Breakwater Park shop sales increased to £24,371 (a fabulous increase of 30% on 18/19)
- Bangor shop sales increased to £2,044 (an increase of 50% on 18/19)
- Sales at Fairs and Events increased to £2,900 (an increase of 5% on 18/19)
- Internet sales increased to £2,868 (an increase of 50% on 18/19)
- The overall sales increased to £76,200 (an increase of nearly 14% on 18/19)
- The final amount to be covenanted to NWWT was £24,700 (an increase of 23% on 18/19)

Enfys Ecology Limited (Registered Company No. 2535184)

The Directors present their report and accounts for the year ended 31st March 2020.

Principal Activity

Enfys Ecology's principal activity is "the provision of wildlife and habitat surveys, management and advice, providing services which encourage engagement of people with the natural world, including through formal education and tourist provision".

Directors' Report

During the year Enfys ecology underwent a number of staff changes, and by the end had expanded further from five to six staff, who continue to be supplemented by accredited sub-contractors as required. As with the rest of the Trust, Enfys is now set up in its new office in Aberduna, and with staff here and in the Trust's Bangor office we maintain good coverage across North Wales. The latest addition to the team, our Habitat Management Office was derived from the Clocaenog tree planting work in the previous year, and works on habitat management and creation contracts.

The Ecological Clerk of Works role at Clocaenog Windfarm from March 2018 reduced dramatically in autumn 2019 when construction was completed, and finished in January. This work was carried out through a good working relationship with SLR Consulting.

Enfys ecology continued to work closely with other Wildlife Trust Consultancies (WTC), especially Middlemarch Environmental, deriving income of over £140,000, working with our team of 7 local sub-contractors who generated a profit of over £50,000. Enfys ecology is still a very active member of the WTC, formerly in role of secretary, and now as chair with responsibility for the management of a WTC staff member. Within WTC we are researching new markets, and collaborating on staff training and conferences. Enfys has not entered into any large framework agreements, but we have good working relationships with many local companies in North Wales.

The most frequent surveys required are still small bat and phase 1 habitat surveys. Only two new Great-crested newt (GCN) project required trapping (on behalf of Middlemarch), and all survey work was monitoring continuing from previous years. Our new habitat management capability has started well, often in liaison with wider NWWT projects, and we look forward to this expanding in future, with a 0.8 FTE post for 2020.

The net profit of £82,116 covenanted to North Wales Wildlife Trust and the funds will be paid over during the next financial year.

The end of the financial year brought some uncertainty due to Covid 19 restrictions, resulting in the loss of some of our normal GCN monitoring contracts, however, there appears to be a healthy order book going forward.

Enfys continues to be "Safe Contractor" accredited and all staff and regular sub-contractors hold Construction Skills Certification Scheme (CSCS) cards. Enfys continues to be ISO 9001 and 14001 accredited with annual audits. All key members who are not currently members of the Chartered Institute for Ecological and Environmental Management will be submitting their applications in spring 2020.

The Directors look forward to continued success in the next financial year.

TRUSTEES OF THE NORTH WALES WILDLIFE TRUST STATEMENT OF TRUSTEES' RESPONSIBILITIES Is detailed on page 2 of this report.

Approved by the Trus	tees on 10th September 2020	

and signed on its behalf by:	Chair	Roger	Thomas

REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS OF NORTH WALES WILDLIFE TRUST

We have audited the financial statements of North Wales Wildlife Trust (A Company limited by guarantee) for the year ended 31 March 2020 on pages 25 to 39. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

This report is made solely to the Trust's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and in accordance with section 144 of the Charities Act and the regulations made under Section 154 of that. Our audit work has been undertaken so that we might state to the Trust's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's members as a body, for our audit work, for this report, or for the opinions we have formed.

In our opinion the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 March 2020 and its incoming resources and application of resources, including its income and expenditure, for the year then ended:
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting standard 102 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- * the trustees' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- * the trustees have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the charitable company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The trustees are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our Report of the Independent Auditors thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- * the information given in the Report of the Trustees for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- * the Report of the Trustees has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the charitable company and its environment obtained in the course of the audit, we have not identified material misstatements in the Report of the Trustees.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- * adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- * the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- * we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the Statement of Trustees Responsibilities, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Our responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Independent Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our Report of the Independent Auditors.

ACCOUNTING POLICIES

Basis of preparing the financial statements

The accounts have been prepared under the historical cost convention as modified by the inclusion of fixed asset investments at market value, and in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities (IRFS 102) - Accounting and Reporting by Charities: Statement of Recommended Practices applicable to charities preparing their accounts in accordance with the Financial Reporting standards applicable in the UK and Republic of Ireland (effective 1 January 2015).

The Trustees confirm that the Charity is a public benefit entity.

The accounts are prepared for the year ended 31 March 2020 the last set of accounts having been prepared for the year previous to that.

Basis of consolidation

The accounts have been prepared under the historical cost convention as modified by the inclusion of fixed asset investments at market value, and in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities, issued in March 2005.

The charity has taken advantage of paragraph 3(3) of Schedule 4 of the companies Act and adapted the Companies Act formats to reflect the special nature of the Trust's activities. No separate SOFA has been presented for the Trust alone as permitted by Section 408 of the Companies Act 2006 and paragraph 397 of the SORP.

Unrestricted funds

Unrestricted funds are expendable at the discretion of the Trustees for the furtherance of the Trust's objects.

Designated funds

Designated funds are unrestricted funds earmarked by the Trustees for particular purposes.

Restricted funds

Restricted funds are subject to specific trusts, which may be declared by the donor, with the donor's authority or may be created through legal process, but still be within the wider objects of the Trust. Restricted funds may be restricted income funds or capital funds.

Depreciation Policy

Individual items costing less than £10,000 are capitalised and fully depreciated in the year of purchase. All other fixed assets are depreciated over their estimated useful life.

Depreciation is provided at the following annual rates:

Plant and machinery - 12.5% Vehicle -20% Computers -33.3% on cost

Heritage assets

Heritage assets comprise nature reserves, buildings and related improvements, which are held under a policy of long-term retention as part of the objects of the Trust.

Nature reserves held at 31 March 2001 are only capitalised to the extent of any historical cost to the Trust. Reserves so held are not revalued because conventional revaluation bases are not considered reliable for this purpose.

Since 1 April 2001, new nature reserves are capitalised where acquired for a known cost or where a reliable value can be attributed to any asset gifted or bequeathed to the Trust

Buildings held in heritage assets owned by the trust have not been depreciated, as in the opinion of the trustees, the programme of improvement and repair maintains the assets to a standard whereby the total residual value will be maintained. Consequently the amount of any depreciation would not be material.

Investment assets

Fixed asset investments in quoted shares, traded bonds and similar investments are valued initially at cost and subsequently at fair value (their market values) at the year end.

The same treatment is applied unquoted investment assets but are valued by the Council in accordance with their best judgement.

Investment property

Investment property is valued initially at cost and subsquently at fair value as valued by the Council in accordance with their best judgement.

Incoming resources

Donations and grants are recognised when receivable, unless there are donor-imposed restrictions as to the timing of the related expenditure. In these circumstances, the income is recognised in the same period as the related expenditure.

Legacies are recognised when it becomes reasonably certain that the legacy will be received and any conditions associated with it have been fulfilled.

Deficits on restricted projects are borne ultimately by unrestricted funds. Surpluses on restricted projects that are not repayable are absorbed by management charges or are transferred to unrestricted funds.

Membership subscriptions are dealt with on a receipts basis. Gift aid is accrued for in the year of account.

Resources expended and basis of cost allocation

All expenditure is accounted for on an accruals basis and classified under appropriate cost categories. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of the resources in accordance with the best estimate of the Trustees.

- Costs of generating funds

Costs of generating funds comprise the costs associated with attracting voluntary income and the costs of trading for fundraising purposes including the charity's shops and kiosks.

- Charitable expenditure

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that be allocated directly to such activities and those costs of an indirect nature necessary to support them.

- Allocation of costs

All costs are allocated between the expenditure categories of the SoFA on a basis designed to reflect the use of the resource. Costs relating to a particular activity are allocated directly, others are allocated on an appropriate basis e.g. salary costs on the basis of time spent.

Stocks

5

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow-moving items.

Pension costs

Contributions under the Trust's defined contribution scheme are charged to the Statement of Financial Activities when paid.

Irrecoverable VAT

Where relevant, costs include the portion of attributable VAT which is irrecoverable.

2 LEGAL STATUS OF THE TRUST

The Trust is a company limited by guarantee and has no share capital. The liability of each member in the event of winding up is limited to £1.

3 FUNDS OF THE CHARITY AND PRINCIPAL OBJECTIVES

The nature of various funds is indicated on the Statement of Financial Activities. The purpose of the funds is to meet the principal objectives of the Trust, these being: -

- i) For the public benefit, to record, study and protect places and objects of ornithological, botanical and other scientific interest, or of natural beauty;
- ii) To establish, form, own, maintain and manage nature reserves for conservation, propagation and control of wild plants and creatures living naturally therein;
- iii) To promote and encourage study and research for the advancement of knowledge and natural sciences.

6 TRADING ACTIVITIES OF SUBSIDIARY COMPANIES

The Trust has two wholly owned subsidiaries, NWWT Trading Ltd and Enfys Ecology Ltd, which are incorporated in England & Wales.

The principal activity of NWWT Trading Ltd is the running of a retail business through two outlets (Great Orme, Llandudno and Breakwater Park, Holyhead) and sales stalls at various events throughout North Wales.

The principal activity of Enfys Ecology Ltd is the provision of ecological consultancy services.

NWWT Trading Ltd and Enfys Ecology Ltd gift their taxable profits to the Trust. A summary of NWWT Trading Ltd's and Enfys Ecology Ltd's trading results are shown below. Audited accounts have been filed with the Registrar of Companies.

	Total funds	1,596,975	1,831,251	(1,964,588)	-	1,463,637

The purposes of individual funds are detailed in note 25 of the accounts.

Contribution (to)/from core funds

A credit (negative) balance against each project comprises a surplus of incoming resources representing a contribution allowed by the grantor to the Trust's support and governance costs specific to that project.

A debit (positive) balance indicates that the project costs exceeded incoming resources, requiring a transfer from core funds to cover the excess. No contribution to support and governance costs can be made regardless of attribution thereto by the grantor.

The balance of £118,729 reallocation to support and governance costs, has been made to meet the requirements of SORP2015 (FRS102). The Trustees do not consider that it is practicable to attempt to reallocate these costs individually to each project. Every project demands a varying amount of management involvement, to calculate the value of which would require undue effort.

17 RESULTS OF PARENT COMPANY

As permitted by section 408 of the Companies Act 2006, the Statement of Financial Activities of the parent company, is not presented as part of these accounts. The parent company's net movement of resources for the financial year amounted to a surplus of £408,800 (2019 a deficit of £37,102).

30 RELATED PARTY TRANSACTIONS

Trustees do not receive remuneration in relation to their responsibilities as Trustees. However they are reimbursed for expenses incurred on behalf of the Trust and subsidiary companies.

The following related party transactions occurred during the year:

The Trust charges its subsidiary companies for occupancy, administration, salary recharge and other costs incurred by the Trust on their behalf. During the year, such costs for NWWT Trading Limited and Enfys Ecology Limited were £1,800 and £20,170 respectively.

During the year Enfys Ecology Limited charged the Trust £51,412 with regard to work done on projects directly attributable to the Trust.

During the year, the Trust received from NWWT Trading Limited £24,703 for amounts gifted to the Trust. At the balance sheet date an amount of £26,503 was owing to the Trust, representing a further payment to be made within the gift aid regulations.

During the year, the Trust received from Enfys Ecology Limited £82,116 for amounts gifted to the Trust. At the balance sheet date an amount of £56,006 was owing to the Trust, representing a further payment to be made within the gift aid regulations and outstanding amount for costs incurred by the Trust on Enfys' behalf.
